

GIORGIO ARMANI

ARMANI / VALUES

THE ARMANI GROUP AND SUSTAINABILITY
SUMMARY OF 2023 SUSTAINABILITY REPORT

Sustainability is not an easy goal, but a path that must be followed with perseverance and determination to achieve real change and lasting results.

Giorgio Armani
Chairman

A handwritten signature of Giorgio Armani in black ink.

OUR COMMITMENT TO SUSTAINABILITY

In 2023, the Armani Group continued to pursue the objectives summarised in the 2019-2030 Sustainability Plan in the three priority areas of action, in line with the Sustainable Development Goals identified by the United Nations: **People, Planet and Prosperity**.

For each of the three areas, specific qualitative and quantitative improvements were identified and planned, in line with the results of the renewed materiality analysis and based on an approach that covers the entire value chain. Several long-term projects have also been launched, such as growing regenerative cotton and working with environmental protection associations.

The Group recognises that sustainability is not an immediate goal, but rather a journey of continuous improvement that requires unwavering commitment and the ability to learn and grow. As a result, the Group is not discouraged by the emergence of critical issues but, guided by its core values, tackles them with determination.

Notwithstanding the increased efforts made in recent years to manage and monitor the supply chain, the critical issues that have arisen¹ have led the Group to make a significant commitment to accelerate and further strengthen the governance and control of the supply chain, also through the adoption of technological solutions that can help prevent future problems and identify new potential risk factors in a timely manner, in line with the new sustainability guidelines.

With this document, which is a summary of the Group's Sustainability Report², we want to share our actions, our progress and our commitment.

Andrea Camerana

Board member of Giorgio Armani S.p.A.

¹ Please refer to the chapter "Events after the reporting period".

² The Sustainability Report is subjected to a limited assurance from Independent Auditors.

EVENTS AFTER THE REPORTING PERIOD

On April 5th, 2024, the Court of Milan notified the subsidiary G.A. Operations S.p.A. of a decree placing it under judicial administration for a period of one year. The measure is based on inspections that led the Milan Public Prosecutor's Office to charge the owners of four Italian subcontractors of two direct Italian suppliers of G.A. Operations S.p.A. with the offence of illegal intermediation and labour exploitation. It should be noted that the total amount of products purchased in 2023 from the two direct suppliers mentioned above represents 0.5% of the total amount of products purchased by the subsidiary G.A. Operations S.p.A.

On July 9th, 2024, G.A. Operations S.p.A. and its parent Giorgio Armani S.p.A. received a notice from the Italian Antitrust Authority ("Autorità Garante della Comunicazione e del Mercato (AGCM)") about the commencement of proceedings and request for information regarding the institutional communications contained in the Armani/Values website, following the opening of the judicial administration proceedings.

The Group is providing the Judicial Administration and the Antitrust Authority with all necessary information with a view to cooperation.

The Group continues to pursue a strategy of continuous improvement in the process of supplier selection, evaluation and monitoring, recognising the importance of this process and reaffirming its zero-tolerance policy on these issues by promoting ethical behaviour and communication.

The Group is monitoring the development of the above investigations and reiterates its position that it is not involved in the alleged facts.

2023 IN NUMBERS AND FACTS

GOVERNANCE

SUSTAINABILITY GOVERNANCE

- Stakeholder engagement on impact materiality through surveys
- 2019-2030 Sustainability Plan integrated into business strategy
- Monthly meetings of the Strategic Sustainability Committee and quarterly meetings with members of the Board of Directors and the Chairman

PEOPLE

EMPLOYEES

- 9,077 employees as of 31/12/2023
 - 62% women employees
 - 50% women executives and managers³

TRAINING

+30% training hours compared to 2022

PLANET

EMISSIONS INTO THE ATMOSPHERE

- -57% absolute Scope 1 and 2 Market-based emissions compared to 2019: target⁴ achieved
- -20% absolute Scope 3 emissions (category 1 and category 9) compared to 2019: reduction target in line with the objectives defined

ELECTRICITY FROM RENEWABLE SOURCES

- 76% (+8% compared to 2022): target in line with the defined objectives

PROTECTION OF THE OCEANS AND PACKAGING

- Partnership with One Ocean Foundation to protect marine ecosystems
- 85% plastic-free B2C and B2B packaging: target in line with the defined objectives
 - 47% of plastic is recycled or plant-based

³ This includes employees who manage a department and/or one or more people, as well as store managers.

⁴ Target approved by SBTi (Science Based Targets initiative):

- 50% reduction compared to 2019 in absolute Scope 1 and 2 Market-based greenhouse gas emissions by 2030
- 42% reduction compared to 2019 in absolute Scope 3 greenhouse gas emissions - related to category 1 "Purchased goods and services" and category 9 "Downstream transport and distribution" - by 2029.

PROSPERITY

PROJECTS - CERTIFICATIONS - COMMUNITY

- One Night Only Venezia: ISO 20121⁵ and ISO 14067⁶ certified event
- Launch of Apulia Regenerative Cotton Project
- Social impact projects with stock recovery
- Joining the Monitor for Circular Fashion and the Monitor for Furniture Pact of SDA Bocconi
- Ongoing support for community projects: Fondazione Humanitas per la Ricerca, Save the Children, Fondazione Umberto Veronesi and Opera San Francesco per i Poveri.

SUPPLY CHAIN

- 638 sustainability audits on suppliers and subcontractors carried out in the period 2019-2023:
 - 339 in the three-year period 2019-2021
 - 299 in the two-year period 2022-2023
 - 172 in 2023 (≈57% of the cost of production generated by façon manufacturers and finished product suppliers)
- Signing the Commitment to Responsible Recruitment launched by AAFA/FLA⁷
- Joining the Open Supply Chain Hub⁸ and the Employment Injury Scheme pilot project with ILO in Bangladesh⁹
- Launch of ESG supplier survey using the Synesgy platform of Cribis and identification of key suppliers
- Re-signing of the International Accord for Health and Safety in the Textile and Garment Industry¹⁰ and rejoining the WageIndicator Foundation¹¹

⁵ Management standards for the sustainable organisation of events.

⁶ Standards for quantifying the CO₂ emissions generated throughout the life cycle of a product or service.

⁷ American Apparel & Footwear Association and Fair Labor Association.

⁸ Accessible and collaborative online supply chain mapping platform used and populated by stakeholders from all sectors worldwide.

⁹ The International Labour Organization (ILO) is working in Bangladesh to establish an occupational injury protection scheme for the textile sector through the Employment Injury Scheme (EIS) pilot project, a national insurance programme to strengthen medical and health care for workers with permanent disabilities and long-term compensation for family members of deceased workers.

¹⁰ For more information, please refer to the following link: <https://internationalaccord.org/>

¹¹ A global, independent, non-profit organisation that collects, analyses and shares information on real wages, minimum wages, living wages, labour laws, casual and self-employment contracts and collective agreements, whose mission is to ensure greater labour market transparency worldwide for workers, employers, institutions and civil society.

THE GROUP IN THE WORLD AS OF 31/12/2023

The geographical areas in which the Armani Group operates directly are¹²:

- **Americas:** United States, Canada, Mexico, Brazil
- **Europe:** Belgium, the Netherlands, France, Germany, Austria, Portugal, Spain, United Kingdom, Ireland, Switzerland, Monaco, Greece
- **Italy**
- **Asia-Pacific:** Japan, China, Hong Kong SAR, Macau SAR, Malaysia, Singapore
- **Australia**
- **Middle East:** Qatar, Saudi Arabia, United Arab Emirates (Dubai)

G.A. Operations (GAO):

- **Italy:** Baggiovara (MO), Trissino (VI), Fossò (VE), Mattarello (TN), Settimo Torinese (TO), Matelica (MC), Carrè (VI), Inzago (MI) and Vertemate (CO).

¹² The Group operates in other countries through third-party partners.

THE SUSTAINABILITY TIMELINE

- 1996 – Exhibition of a recycled jeans model at the Museum of Science and Technology in Milan
- 2003 – CA-RI-FE Award for the reintroduction of textile hemp in the Italian fashion sector
- 2010 – Start of the Acqua for Life project
- 2012 – Outfit made from recycled PET on the Golden Globes Red Carpet
- 2013 – Establishment of the Corporate Social Responsibility Department
- 2014 – First social and environmental audits of the supply chain and installation of photovoltaic systems at the offices in Via Bergognone, Milan
- 2015 – Opening of Armani/Silos
- 2016 – Year of establishment of the Giorgio Armani Foundation
- 2016 – Fur Free Policy
- 2018 – First year of public reporting (2018 Sustainability Report)
- 2019 – Joining “The Fashion Pact” initiative
- 2020 – Launch of the Emporio Armani recycled Capsule Collection
- 2021 – Sustainability Governance, People, Planet, Prosperity Strategy and Double Materiality
- 2021 – ISO 20121 certification of the sustainable event One Night Only Dubai
- 2021 - Announcement of the commitment not to use angora wool in the collections of all lines as from the Fall Winter 2022/23 season
- 2021 – Launch of the sustainable capsules with yarns and/or fabrics made from materials such as recycled polyester or organic cotton
- 2021 – Approval of absolute emission into the atmosphere reduction targets by SBTi
- 2021 – Joining the Fashion Task force of the Sustainable Markets Initiative and Textile Exchange
- 2022 – Joining the Manifesto for Regenerative Fashion of the Sustainable Markets Initiative
- 2022 – Application of the ISO 20121 and ISO 14067 for sustainable event management system and emission calculation
- 2022 – Launch of the Emporio Armani Sustainable Capsule Spring Summer 2023 collection, with QR Code dedicated to sustainability information, in line with the ISO 14021 standard
- 2022 – ESG risk mapping analysis in the supply chain
- 2022 – Launch of the Armani/Values website
- 2023 – Launch of Apulia Regenerative Cotton Project
- 2023 – Launch of ESG supplier survey and identification of key suppliers
- 2023 – Collaboration with ILO and joining the Open Supply Chain Hub
- 2023 – Signing the “Commitment to Responsible Recruitment”
- 2023 – Launch of the ESGeo platform for environmental and social data collection
- 2023 – Social impact projects with stock recovery
- 2023 – Partnership with One Ocean Foundation to protect marine ecosystems
- 2023 – Continuation of the partnership with Forestami

THE ARMANI WORLD

THE GROUP'S MAIN BRANDS

GIORGIO ARMANI

The **Giorgio Armani** collection includes clothing, accessories, watches and eyewear and is characterised by attention to detail, purity of line and the use of high-quality materials. The men's line offers a "Made-to-Measure" service and the **Giorgio Armani Privé haute couture** women's collection, one-of-a-kind garments made to order and sold worldwide.

The **Emporio Armani** line offers a wide range of clothing and accessories - including eyewear, watches and jewellery from the EA7 sportswear collection to the formal up to the elegant - appealing to different target groups, including children.

EMPORIO ARMANI

ARMANI EXCHANGE

The **A|X Armani Exchange** collections offer affordable and versatile garments and accessories - including watches and eyewear. Departing from conventional norms, they present an unconventional approach to style and identity, embodying a lifestyle that is firmly rooted in street culture.

APPROACH TO SUSTAINABILITY

People, Planet, Prosperity

THE VALUES AND THE CONTROL SYSTEM

The activities and strategic choices of the Armani Group are guided by the Group’s values, which are set out in the **Code of Ethics**. The Code contains the ethical principles and rules of conduct that the organisation shares with its employees, collaborators, suppliers and all those who work on behalf of the company.

OUR VALUES

Protection and promotion of diversity

Transparency and completeness of information

Personnel policy

Team Spirit

Protection and respect for the environment

Responsibility to the community

Integrity and sharing

Trust

THE CONTROL SYSTEM

In 2023

Zero

- Discrimination cases
- Corruption cases
- Non-compliance with social, environmental, and economic laws
- Legal actions regarding anti-competitive, antitrust, and monopolistic practices¹³

In accordance with Italian Legislative Decree no. 23/2024, the **whistleblowing procedure** has been updated and made available to all recipients on the Group’s website. The current procedure uses a third-party company to ensure the confidentiality of the reporter.

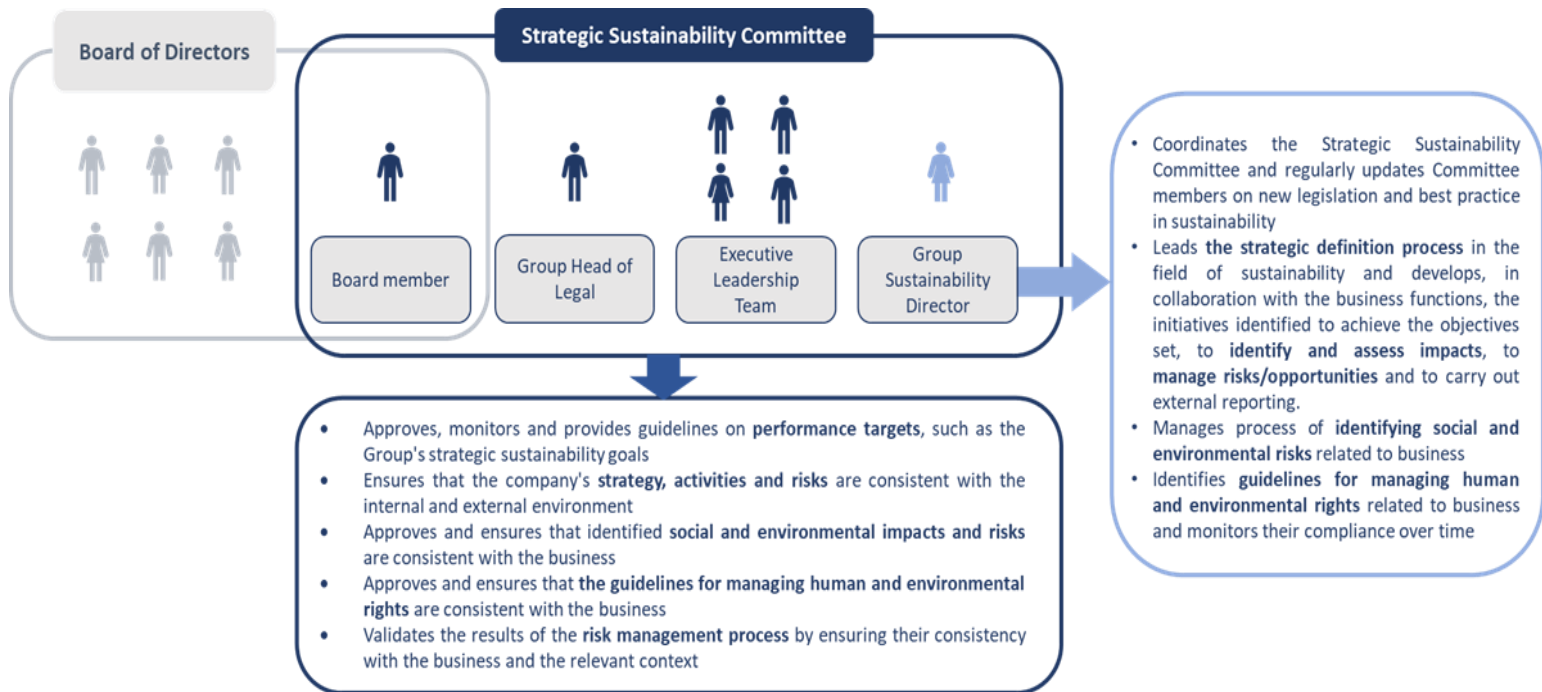

¹³ For 2024, please refer to the chapter “Events after the reporting period” at the beginning of this document.

THE SUSTAINABILITY GOVERNANCE

Giorgio Armani, Chairman and Chief Executive Officer of the Group, founded in 2016 the **Giorgio Armani Foundation**, with which the designer wanted to ensure guidance in the future management of the company and the transmission and safeguarding of the values and principles that have always inspired the founder’s creative and entrepreneurial activities.

During 2023, the **Strategic Sustainability Committee** - composed of a Board member of Giorgio Armani S.p.A., the Executive Leadership Team¹⁴, the Group Head of Legal and the Group Sustainability Director¹⁵ - met monthly to discuss issues, projects, objectives and results, and to assess and approve the process for defining material topics. The Strategic Committee also provided regular updates to the Chairman and the full Board of Directors.

THE SUSTAINABILITY GOVERNANCE MODEL

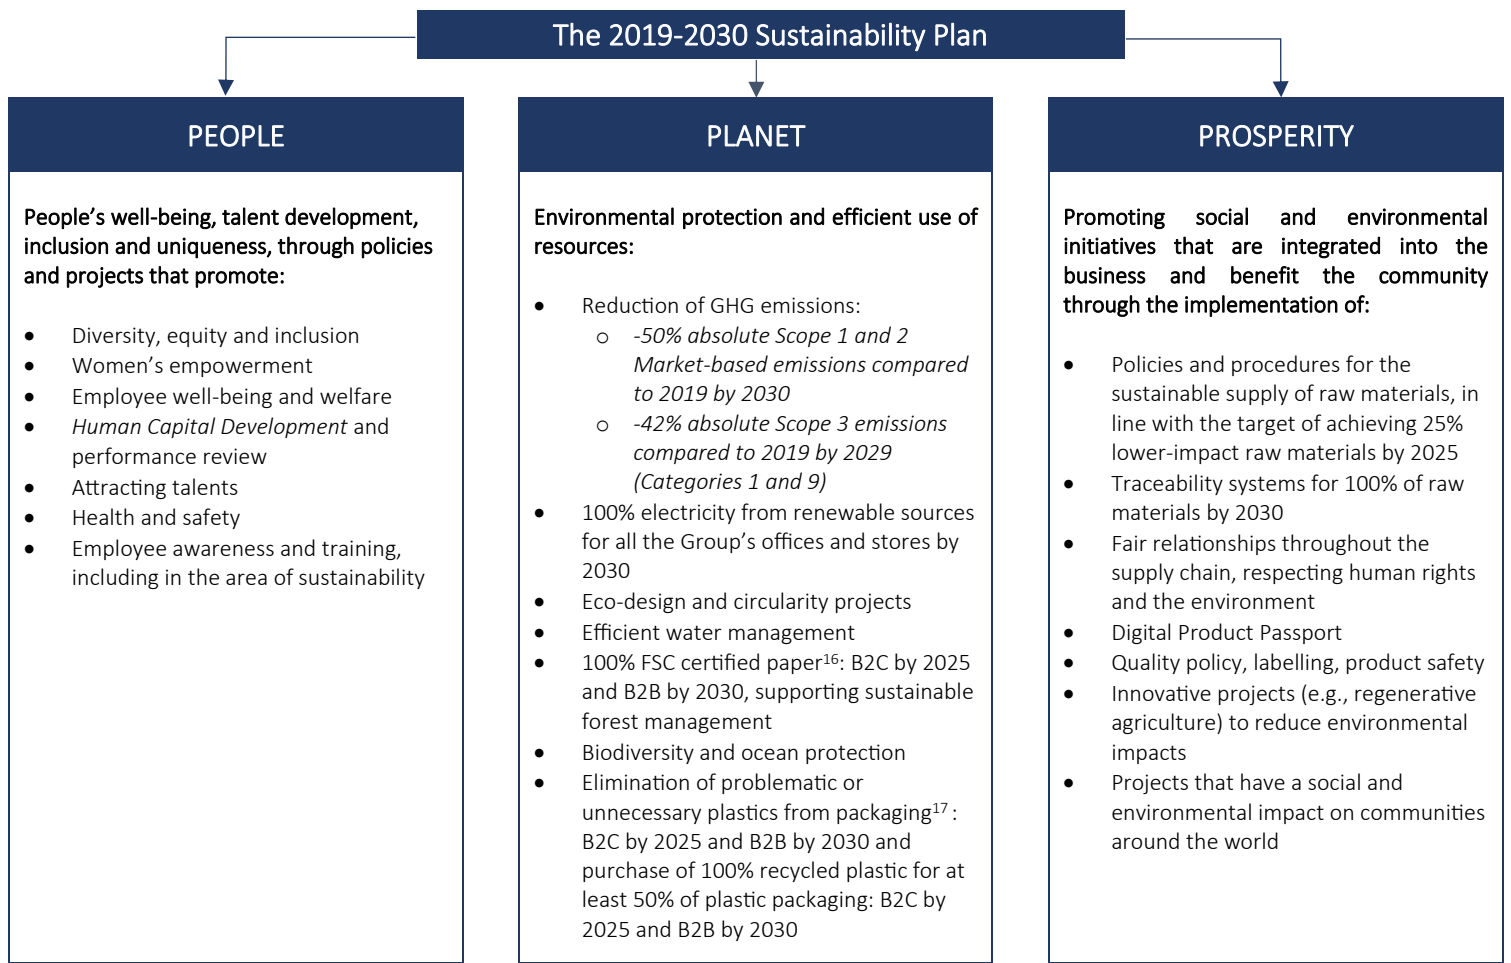

¹⁴ The Executive Leadership Team consists of the following persons: Deputy Managing Director Commercial, Deputy Managing Director Operations, Deputy Managing Director Industrial and Global Human Resources Director.

¹⁵ To raise awareness of ESG risks in the supply chain, the Group Sustainability Director was appointed as a member of the Board of Directors of G.A. Operations S.p.A. in April 2024.

PEOPLE, PLANET, PROSPERITY

2019-2030 SUSTAINABILITY STRATEGY AND PLAN

In 2021, the **sustainability strategy** was launched, defined around three main areas of action: **People, Planet and Prosperity**. For each of the three areas, specific qualitative and quantitative objectives were identified in line with the results of the materiality analysis. These objectives are summarised in the **Group’s Sustainability Plan**, which is fed by internal strategic planning and analysis processes, reinforced by stakeholder input and participation in national and international working groups, in line with the **Sustainable Development Goals (SDGs)** defined by the United Nations.

SDGs of reference

¹⁶ FSC: Forest Stewardship Council <https://fsc.org/en>.

¹⁷ According to the definition of The Fashion Pact, it is sufficient for plastic to meet one of the following criteria to be considered problematic or unnecessary: it cannot be reused or recycled; it contains, or its production requires, hazardous chemical substances that pose a significant risk to human health or the environment (applying the precautionary principle); it can be avoided or replaced by reusable alternatives; it makes it difficult or impossible to recycle other plastic items; it is likely to be discarded or dispersed in the environment. For more information, please refer [to this link](#).

THE MATERIALITY ANALYSIS

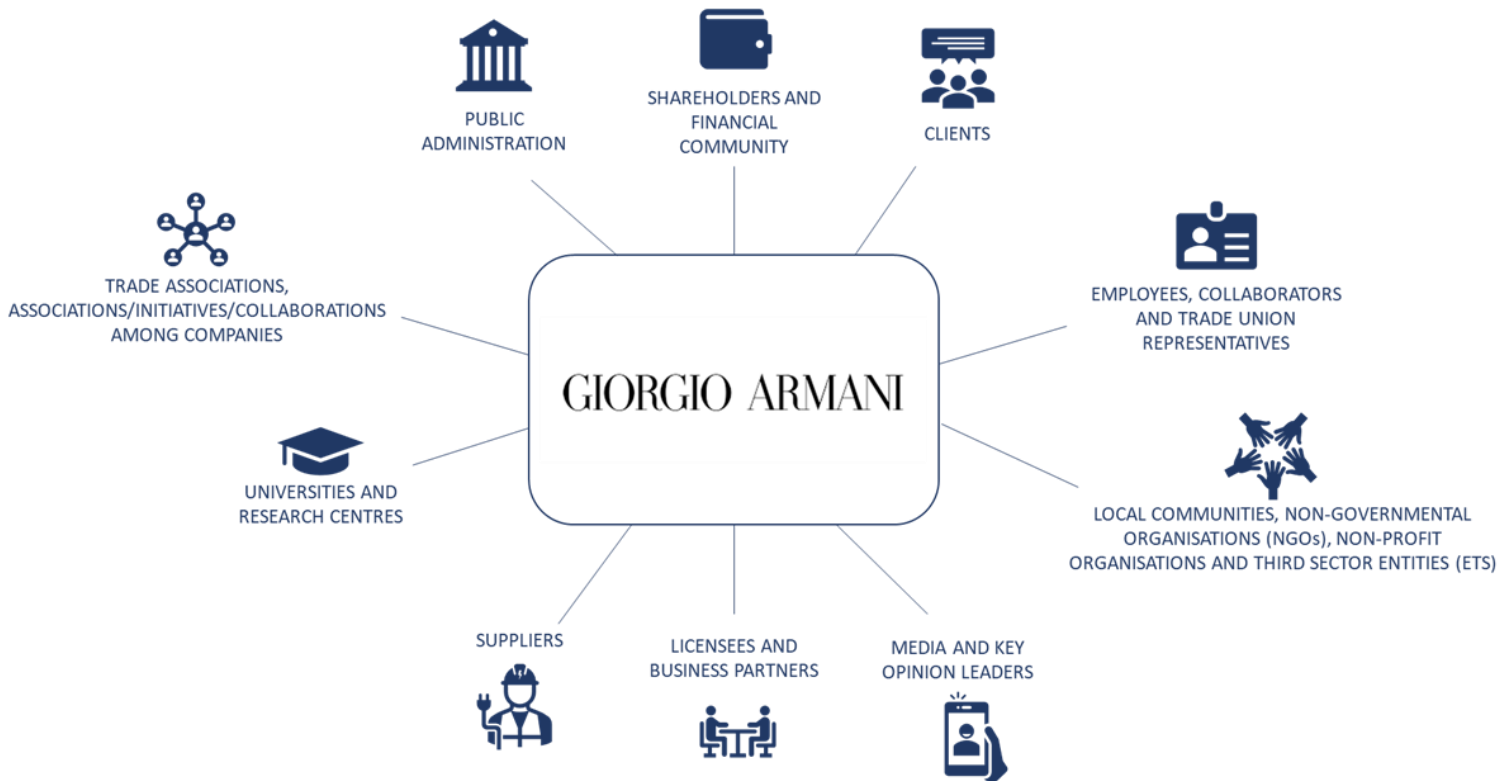

The Armani Group reports its main results and performance on sustainability in line with the **principle of impact materiality**. This principle makes it possible to identify the potential impacts generated and, consequently, the issues of greatest strategic interest to the Group and its stakeholders, with a view to creating value in the medium to long term.

Specifically, the process of updating the materiality matrix consisted of five main steps:

1. External and internal context analysis
2. Mapping of the main stakeholder categories
3. Impact identification
4. Stakeholder engagement via online questionnaire
5. Analysis of results and preparation of the materiality matrix.

The stakeholders and the Top Management of the Armani Group were involved in completing an online questionnaire. In 2023, the questionnaire was sent to about **540 stakeholders and Top Management** with a response rate of about 50%.

ENERGY CONSUMPTION AND EMISSIONS¹⁸

In 2021, the Group set the following **goals for reducing greenhouse gas emissions** to help limit global warming in line with the Paris Agreement:

By 2030
-50%
 Scope 1 and 2 market-based
 GHG emissions compared to
 2019

By 2029
-42%
 Absolute Scope 3 GHG
 emissions (Categories 1 e 9)¹⁹
 compared to 2019

In 2023, the action plan to reduce emissions and purchase an increasing share of electricity from renewable sources continued. In line with the goals of the Sustainability Plan, in 2023, the Armani Group increased the share of **electricity from renewable sources to 76% of total electricity consumption** (an increase of about 8% compared to 2022).

-57%
 Scope 1 and Scope 2 Market-based
 emissions vs 2019

-20%
 Scope 3 emissions (Category 1 e
 Category 9) vs 2019

76%
 Electricity from renewable sources

→

+8%
 vs 2022

Electricity from **100% renewable sources** in Italy, Switzerland, Spain, Portugal, Canada, United States, Mexico, Brazil, China, Macau SAR, Hong Kong SAR, Malaysia, and Singapore

Photovoltaic system at the Milan headquarters in Via Bergognone (since 2014) and GAO Modena (since 2024)

¹⁸ Scope 1 emissions are direct emissions from the combustion of fossil fuels used, for example, for heating. Scope 2 emissions are indirect emissions from the production of the electricity used. Scope 3 emissions are indirect emissions from the company's value chain, in the upstream and downstream phases.

¹⁹ Category 1: purchased goods and services. Category 9: downstream transport and distribution.

CIRCULAR ECONOMY AND WASTE MANAGEMENT

The Armani Group particularly values the aspects of a circular economy and is committed to gradually adopting its principles in the realisation of its products.

94%

Waste recovered or reused in Italy

WATER RESOURCE MANAGEMENT

In 2023, the Group continued its efforts to promote **responsible use of water resources** - primarily for sanitation services, air conditioning, and catering activities - by encouraging more efficient water use and reducing waste. Controls are also applied to ensure that water discharges comply with applicable regulations.

317,593 mc

of which 92% from aqueduct

12%

GAO²⁰ water withdrawal from areas with water stress

PACKAGING

The Group is in the process of reviewing and updating its packaging to **reduce the use of plastic** in favour of other materials such as paper, cardboard and textile fibres, and to **increase the use of recycled and certified materials**. All interventions were also carried out to maximise the **recyclability** and recovery of individual materials.

85%

Plastic-free packaging

47% of plastic used is recycled or plant-based

²⁰ GAO: G.A. Operations

BIODIVERSITY AND OCEAN PROTECTION

In 2023 - in line with the strategic approach of “**Avoid, Reduce, Restore and Regenerate**”, the goals of the Sustainability Plan and the commitments made in international tables - the Group has implemented various actions aimed at protecting terrestrial and marine ecosystems, promoting regenerative practices and reforestation projects, and combating climate change.

Main initiatives:

- implementation of the “**Sustainability requirements for raw materials and production processes**” guidelines, giving preference to certified, organic and recycled materials
- launch of the experimental scientific project “**Apulia Regenerative Cotton Project**”, which involves the development of a cotton field in Apulia (Italy) according to the regenerative farming system
- support for reforestation and forest conservation projects
- continuing the Group’s commitment to **protecting the oceans** by reducing the use of plastic, increasing the use of recycled plastic and support for marine ecosystem protection projects promoted by **One Ocean Foundation**.

PROSPERITY

RELATIONS WITH THE SUPPLY CHAIN

The Armani Group has **mapped the social and environmental risks of suppliers and subcontractors** to monitor and control its supply chain and promote the ESG culture.

The Group requires its suppliers to sign and comply with the **Supplier Sustainability Code, which is included in the general purchasing conditions.**

Issued in 2022 and based on the principles of the United Nations International Labour Organisation (ILO) conventions, Human Rights conventions and international certification standards, the **Supplier Sustainability Code** aims to provide guidance to suppliers on respecting the human rights and working conditions of their employees and limiting their environmental impact, from the sourcing to the use of materials and throughout the value chain.

The Group carries out **annual social and environmental audits** on a sample of suppliers and subcontractors to ensure that the supplier complies with the requirements indicated in the Supplier Sustainability Code regarding human rights, working conditions, health and safety, and the environment. These are audits conducted by third-party companies aimed at overseeing and mitigating the risks associated with outsourced activities and initiating continuous improvement processes.

CUSTOMER RELATIONS

In 2023, the Armani Group continued its commitment to promoting digital ID through the Sustainable Markets Initiative Fashion Task Force, of which it is a member: the **Digital Product Passport** is being tested on approximately 29,000 garments, using a **QR code** to display **product information in addition to authentication**.

To ensure product safety, the Armani Group requires its suppliers to constantly comply with the limits in the **Product Restricted Substances List (pRSL)** and the parameters defined in the **Manufacturing Restricted Substances List (mRSL)** for emissions into the water and into the atmosphere. The Armani Group also monitors the possible presence of prohibited substances through testing protocols managed by GAO and carried out by ISO 17025 certified laboratories.

In order to ensure the compliance with the most advanced sustainability requirements and to minimise the environmental and social risks associated with the use of chemicals, the Group adopted the following guidelines in 2023:

- “Guidelines on eco-toxicological requirements for clothing, leather goods, footwear and accessories” on the use of chemicals in products
- “Guidelines on eco-toxicological requirements for chemical mixtures and industrial discharges” on the use of chemicals in production processes
- “Good manufacturing practices - guidelines on the use of chemical products in the production lines of fashion”, sponsored by the Ministry of Ecological Transition and the result of the efforts of the National Chamber for Italian Fashion Chemicals Commission of which the Group is a member.

SUSTAINABLE EVENT MANAGEMENT

Since 2021, events organised by the Armani Group (fashion shows and special events) are designed and executed to minimise their social and environmental impact. In addition to signing the Supplier Sustainability Code, all suppliers involved are required to comply with the **Guidelines for the Management of Sustainable Events**, which outline the requirements to be applied in pursuit of this goal.

The Group’s events are implemented in such a way as to be certified in accordance with the **ISO 20121 - Event sustainability management systems** and **ISO 14067 - Carbon footprint of products**. For each event, data on the environmental impact (e.g., energy consumption, distance travelled by participants and means of transport used to reach the event, type of meals consumed, materials used to set up the event) are collected and entered into a tool²¹ that automatically converts all inputs into carbon dioxide emissions.

- Sustainable ISO 20121 and ISO 14067 certified event
- Offset of residual emissions with environmental projects in the Venice lagoon managed by **Sea the Change** and **Blue Valley**.
- Donation to the non-profit organisation **We are here Venice** e and to the **Venetian Heritage Foundation**

²¹ The tool was developed by a not-for-profit organisation that supports companies on their journey towards sustainability, decarbonisation and sustainable management and was verified by an independent certification body.

RELATIONS WITH THE COMMUNITY

Aware of the positive impact that supporting the community can have, the Armani Group, thanks to valuable relationships in the areas where it operates, continuously supports initiatives in the fields of medical-scientific research, the fight against inequality, culture, environmental protection and social integration through sport.

- **Medical-scientific research**
